

Industrial Woven Fire Hose

Angus D700 Polyester Double Jacket Rubber Lined Fire Hose

This heavy duty double jacket industrial fire hose is designed for daily use where higher pressure and additional abrasion resistance is required. Construction of 100% high tensile strength virgin polyester yarns, both warp and filler, provides extra durability. Hose comes standard with E.P.D.M. lining. The standard color for Angus D700 Hose is white. Other colors available with our innovative ARMOUR JACKET abrasion resistant coatings are red, yellow, orange, blue, green and tan.

Angus S600 Polyester Single Jacket Rubber Lined Fire Hose

A single jacket, polyester industrial fire hose with an ozone-resistant E.P.D.M. rubber lining. The spun polyester yarn in the jacket offers superior strength and wear characteristics. Designed for interior or exterior fire protection, Angus S600 is NFPA compliant as an attack hose. The polyester construction is mildew resistant. The standard color for Angus S600 Hose is white. Other colors available with our innovative ARMOUR JACKET abrasion resistant coatings are red, yellow, orange, blue, green and tan.
