72	82.12	-	-	-

Belt Clamps

Made of high strength aluminum alloys, are rugged while light in weight and easy to handle. The unique design provides constant pressure applied to the belt while the belt clamps are under tension. The more tension applied, the greater pressure transferred to the belt. The steel power clamps are attached to alloy steel chains which are designed to be used with ratchet pullers.

NUMBER	PRICE
BC-18	\$ 411.72
BC-24	440.52
BC-30	486.58
BC-36	532.64
BC-42	561.44
BC-48	636.84
BC-54	665.06
BC-60	691.00
BC-72	731.30

PRICED AS A SIDE, BUT USED IN PAIRS (2 SIDES).
