

Professional Installation System

Staplegrip, with its pneumatic Staple Gun SG-100 and Lacing Tool, has been an innovation that has been widely accepted since its introduction in 1992. The tool is available in lengths from 12" -72".

Not only does this system ease the pain of a hammer tool, it yields a stronger belt splice. All work is 100% visible at all times during installation.

The Staple Gun drives each staple with the same uniform driving force, and the unique die cavities of the Lacing Tool receive and clinch the staple to within 80-90% of maximum clinch. That means that the fastener strip is placed and held in compression by the single initial driving force of the Staple Gun.

After all staples are driven into the strip, a single hammer blow creates a smooth, clinched staple—all without having to turn the belt over or pull out misdirected staples. A fully clinched fastener which is uniform across the entire belt width means a stronger splice that will last longer. Field tests have proven Staplegrip does last longer. Patented.

Staple Gun

NUMBER	PRICE
SG-100	\$ 365.90

Lacing Tool

NUMBER	PRICE
LT-12	\$ 786.00
LT-24	1572.00
LT-36	2358.00
LT-48	3144.00
LT-60	3930.00

NOTE: TOP PLATE INCLUDED.
SPECIFY 62, 125, OR 187.
