

Steelgrip Conveyor Belt Lacing

Long lengths for flat conveyor belt applications, Steelgrip lacing is available in 9 styles and an almost endless variety of lengths to suit the specific application. The advantage of long lengths is to assure uniform pull across wide belts, distributing tension of the belt evenly. Steelgrip long length lacing is available from stock in most popular long lengths up to 60". Special lengths, including continuous strips for extremely wide belts, are also available.

Steelgrip long length lacing is specially mounted, and shipped in cartons designed specifically for the purpose in order to prevent bending or end damage.

CONVEYOR BELT LACING - STEEL

4 COMPLETE SETS OF LACING WITH GAUGE PIN AND 4 HINGE PINS.

*PIW (PER INCH WIDTH) - FOR SIZES NOT SHOWN, MULTIPLY THE WIDTH TIME PIW TO CALCULATE THE PRICE.

EXAMPLE: TO CALCULATE THE PRICE OF 1 BOX 15S-22, MULTIPLY 5.35 X 22 - \$117.70. THIS IS EQUAL TO THE LIST PRICE OF 1 BOX OF 4 SETS OF STAINLESS LACING.
