1"	1-36/64"	1-44/64"	<b>RE100-1770</b>	<b>74.15</b>

Developed specifically for chemical transport hoses having Crosslinked Polyethylene (XLPE) or Ultra High Molecular Weight Polyethylene (UHMW) tubes. Swaged Boss-Lock provides you with a permanently attached Cam and Groove fitting when superior coupling retention is required.

In testing tank transport hoses from a wide variety of manufacturers, the swaged Boss-Lock fitting proved itself to be the clear winner in overall performance.

Fittings are also available on special order for other sizes or hose O.D.'s. *Consult the factory for pricing and availability.*

Consult the factory for pricing and availability of the special equipment required for installation or refer to page 312.

## Notched Boss-Lock Type E Cam and Groove Adapters

The largest advantage of the notched Boss-Lock design is that the coupling can be removed from a damaged hose by cutting away the ferrule, without necessarily damaging the fitting. *After inspection to determine its suitability for reuse, it can be reinstalled into another hose by using a new ferrule.*

The notched Boss-Lock system allows you to better manage your inventories. You can stock one coupling and two ferrules, and cover the same hose range with less inventory. *You must purchase a fitting and the matching ferrule to create an assembly.*
