

Cam and Groove

Strap-Grip Saddles and Fittings

Strap-Grip is designed to provide greater resistance to end pull than conventional band clamps alone. **Only** the fittings shown below are designed for use with Strap-Grip Saddles. Saddles are designed for use with 3/4" or 5/8" wide bands. Band clamps should first be applied to the O.D. to seal the hose. Then Strap-Grip saddles should be banded over the initial clamp to anchor the fitting in the hose. *Bands must be purchased separately.*

Saddles Only

Size	Hose O.D. Range		Plated Iron	
	From:	To:	Part #	Price/E *
1-1/2"	1-13/16"	2-1/8"	SGS150	\$12.70
