Part #	Price/E*		Part #	Price/E*		
AM10	\$19.30	25	AB10	\$48.05	25	

* Prices for Universal couplings listed above include safety clip (not pictured).

SAFETY
ALERT

The use of an Air King safety clip or wire type retainer is necessary to assure Air King universal couplings will not become accidentally disconnected. This guarantees the fittings are properly connected as pin will not go through holes in mating flanges until couplings are locked in place. Only one Air King safety clip or wire type retainer is required for each Air King universal coupling.

- See page 6 for Whip Hose safety information.
- Air King is rated to **150 PSI** at ambient temperature (**70°F**).
- Standard Air King fittings come with AWR4 washers.
- Air King available to meet pressure requirements as specified in A-A-59553 commercial item description superseding Mil Spec. WWC-633D.

¹ May use with Air King ferrules

SAFETY
ALERT

Warning: Never use any Air King coupling for steam service!

None of Dixon's catalog information is to be interpreted to mean that this type of coupling is suitable for use on steam hose.
