6"	FST60	258.20	RFST60	911.55
8"	FST80	465.00	RFST80	1658.30
10"	FST100	670.00	RFST100	3502.00
12"	FST120	911.65	RFST120	4171.50

Shank Fittings E

Notched Turned Back Nipples

- When used with an appropriate notched ferrule, these fittings can be swaged or crimped onto hose, thereby providing improved shank retention.
- The stem can be removed from a damaged hose by cutting away the ferrule, without necessarily damaging the fitting. *After inspection to determine its suitability for reuse, it can be reinstalled into another hose by using a new ferrule.*
- When used with double bolt or band clamps, notched turned back nipples will provide shank retention similar to that of the King turned back nipples.
- Notched turned back nipples let you use the same ferrules used with the notched (NO) cam and groove. This lets you maximize your inventory usage and reduce costs.
