

## Fire Hose Fittings

### Continuous Flow Hose Reel with Hand Crank

Trouble-free design ensures dependable performance in heavy duty applications requiring long lengths of hose. Adaptable to both plant and field use. Reel frame, spool and drum are heavy gauge steel with a durable red powder-coat finish. Easily converted to power-driven types. Motor driven units (electric or air) are also available, contact Dixon for pricing and availability. **Caution:** to prevent drum damage, fully extend and pressurize the hose and wind on the reel. The reel should always be wound under pressure.

- All bolted construction - no welds
- Adjustable spool rotation drag eliminates hose backlash with de-reeling
- Zinc plated swivel with Viton® O-ring seals
- Full flow shaft and ball bearing swivel
- Permanently lubricated dual main bearings
- Lock pin to prevent spool rotation when the reel is not in use
- NPTF (F) inlet matches swivel size outlet male NPT
- 31" wide (including crank) x 21¼" tall x 17¾" deep, 6" O.D. drum

Size	Non-collapsible Hose Capacity	Working Pressure PSI	Part #	Price / E
1"	100' of 1" hose	300	CA37118L	\$825.10

### Non-collapsible Fire and Utility Hose - Red

Consult the factory for pricing and availability for any of the following features:

- 25' and 100' lengths
- Other threads and configurations

Working pressure: **150 PSI**

**Coupled with female and male NST (NH) thread, rocker lug, brass expansion ring couplings**

Size	Length	Part #	Price / Each
1½"	50'	15B15-50RBF	\$964.70
1½"	100'	15B15-100RBF	1825.15

### Hump Racks

- Compact, neat and economical method of storing collapsible hose
- Pivot mounting permits rack to swing to the proper angle, preventing kinks and twists.
- Rugged steel construction provides long, dependable service.
- Red enamel finish for protection and appearance
- Open sides allow faster hose drying to prevent mold and mildew.
- Wall mounting brackets are standard

Hose Size	Capacity			Part #	Price / Each
