

John Perry Fittings

Your applications demand quality and reliability from your John Perry fittings, along with expeditious delivery. Now businesses servicing food, dairy, beverage, and meat processing can trust Bradford™ John Perry fittings.

Dixon Sanitary offers a wide variety of John Perry fittings in 304 and 316L stainless steel in sizes ranging from 1" to 4". These fittings are available from our thirteen distribution centers - so we can ship the parts you need within twenty-four hours.

E

Bradford™ quality: maintaining the standard

The Sanitary Standards were originally created by the dairy industry as a voluntary benchmark for sanitary safety. The standards are still developed collaboratively by a group of processors, suppliers, and sanitation specialists.

Dixon Sanitary has earned the 3A symbol through the Third Party Verification (TPV) program, which requires a professional assessment rather than voluntary compliance to make certain each product conforms in all respects to the published standard. The standards are accepted by the USDA and USFDA.

Bradford™ Sanitary Fittings meet 3A Sanitary Standards for Sanitary Fittings for Milk and Milk Products, Number 63-03 (Authorization number 621). See the Dixon Sanitary website, [www.dixon-sanitary.com](#), to download a PDF of the certificate or call Dixon Sanitary.

Dixon Sanitary is proud to be a participant in the 3A TPV program.
