

# FIN FAN

Part No: 3150 14M 55\FFAN  
 3150 3150mm Pitch Length  
 14 14mm Pitch  
 55 55mm Wide  
 \FFAN Special Fin Fan Construction

## APPLICATIONS

Specific application power transmission synchronous belts used primarily in the chemical, petroleum, and refining industries.

## KEY FEATURES & BENEFITS

- Special Fin Fan construction.
- Universal tooth profile drops into existing HTD sprockets.
- Quiet tooth engagement.
- High-grade Wingprene™ compound.
- Higher horsepower “Plus” construction.
- Fiberglass tension cords for excellent resistance to shrinkage/elongation.
- Oil, heat, ozone, and abrasion resistance.
- Low-maintenance/high-efficiency rating.

# POWERSTREAK™ SPORT VEHICLE

## APPLICATIONS

For snowmobiles, golf carts, ATV vehicles, and various other recreational vehicles requiring variable speed belts.

## KEY FEATURES & BENEFITS

- Built for speed at high horsepower.
- Heavy gauge Flexten® cord that's pound-for-pound five times stronger than steel.
- Special tire cord supports the Flexten cord for extra load capacity.
- Flexten fiber cushion increases heat resistance.
- Fabric cover cogs allow for dissipation of heat buildup and long belt life.
