

ISO 9001 Registration

Kuri Tec® hose and tubing is manufactured in our own facilities, which have earned registration under ISO Standard 9001.

The ISO 9000 family of standards represents an international consensus on good management practices with the aim of ensuring that the organization can time and time

again deliver the product or services that meet the customer's quality requirements.

ISO 9001 is a quality assurance model against which a plant's quality system can be audited. The standard sets out the requirements for an organization whose business processes range all the way from design and development to production.
