* Also available in bulk pack.

To Order: Measure the outside diameter of the hose with its fitting inserted. Then select the next larger inside diameter clamp by catalog number. Using the hose size in inches is not sufficient information, because different thickness of hose will result in varying outside diameters. Punch-lok clamp standard material is 201 Stainless and high-strength galvanized carbon steel. Everdur copper-base clamps are also available on special order.

Original Pre-Formed Punch-Type Clamp
