

PUNCH-LOK PLATED HOSE FITTINGS

Made in U.S.A.

Punch-Lok single and double groove hose fittings of all types are designed and engineered for use with Punch-Lok Clamps to make connections which will withstand high pressure services. The shape of the grooves eliminates damage to the inner wall of the hose. The Punch-Lok Clamp brings the hose wall into the grooves with even compression around the fitting. Carbon Steel steam hose fittings are available in sizes ranging from 1/2" to 1" and include tie wires. Hex Steel Lok-Nipples are cut from hexagon shaped cold rolled steel bar stock with full thread and tapered end for easy application. Lok-Nipples are manufactured in standard iron pipe sizes. All Lok-Menders are manufactured in standard iron pipe sizes except for 1/2" and 5/16" where it is necessary to use brass for a good inside diameter fit. All fittings are plated as standard except for brass fittings.

HEX-STEEL LOK-NIPPLE, 1 GROOVE

Made in U.S.A.

HEX-STEEL LOK-NIPPLE, 2 GROOVES
