

Quick Disconnect Couplings and Hydraulic Valves

Since 1935, the Quick Disconnect & Valve Division of Snap-tite Inc. has offered more combinations, sizes, and types of quick disconnect couplings than any other manufacturer in the world today. Snap-tite is also a leading supplier of inline and cartridge style pressure, flow and load-holding hydraulic control valves for mobile equipment and other industrial markets.

Hundreds of markets and industries depend on our products ability to perform under the most demanding conditions. From the ocean floor to the very edges of our solar system, and everywhere in between, Snap-tite products set the industry standard.
