

# What makes the Roller Lacer® ideal for On-Site Installation of Clipper® Wire Hooks?

Roller Lacer® Gold Class™

Manual Roller Lacer®

Microlacer®

## **Faster.**

Reliable Clipper® splices are typically installed in less than 15 minutes, thanks to the wide lacer widths and the use of Roller Lacing Technology™. Quicker installation translates to less downtime, greater productivity, and increased profits.

## **Easier.**

- Portable - Made from aircraft aluminum, the lacer remains lightweight and can be easily transported directly to the jobsite for fastener installation.
- Easy Installation - Simple installation procedures, combined with the ability to clamp and secure the belt, make splicing a one-person job.

## **Smarter.**

With three different models to select from you are sure to find a lacer to best fit your needs.

- Roller Lacer® Gold Class™: Ideal for customers who either have a large number of belts in their facility or where minimizing downtime is crucial. This lacer offers maximum benefits for high speed installation and minimal operator effort through the use of a cordless drill to drive the lacer head and other features. Available in 24", 36", 48", and 60" widths (600, 900, 1200, 1500 mm).
- Manual Roller Lacer®: A great choice for customers with wide belts who desire quick, on-site installation. Available in 24", 36", 48", and 60" widths (600, 900, 1200, 1500 mm).
- Microlacer®: This 14" (350 mm) lacer is ideal for users with narrow belts or for low volume users.
