

# Hose Assemblies Are Easy With the Parkrimp System.

Since its introduction in 1980, the Parkrimp family of crimping machines has led the industry in ease of use and rugged durability.

With Parkrimp, you benefit from a full length crimp.

Our low profile design makes routing hose assemblies easy.

No-Skive hoses and fittings combine with the Parkrimp system to create high quality, reliable hydraulic hose assemblies every time.

When it comes to hose assemblies, no one puts it all together like Parker. From high-volume productivity to portable on-site assembly, we offer a variety of crimping machines, No-Skive hoses, and No-Skive fittings to meet your needs.

With Parkrimp equipment,

anyone can make factory-quality hose assemblies quickly, easily, and cost effectively. Parkrimp machines are simple to operate. And, they're built to provide years of dependable service. Seven Parkrimp models – an entire family of crimpers – are available to meet your

bench-mounted or portable needs, crimping straight or bent-stem fittings from 1/4" to 2" in diameter. Just use our No-Skive hoses and fittings to create leak-free hose assemblies whenever and wherever you need them.

The complete system from one source: No-Skive hose, No-Skive fittings, and crimping machines with worldwide availability and service.

### Hose Hint

The Parkrimp system is designed to crimp fittings to the proper diameter every time. However, it is good practice to use a set of calipers and measure the first, fiftieth, and last hose assemblies produced to ensure proper crimp dimensions. Refer to the decal on your Parkrimp crimpers for the proper minimum/maximum crimp diameters.

### Portable Crimpers
