

Duo-Coil™ Features

Newly designed Parker Duo-Coil combines both tractor-to-trailer lines (service and emergency) into a strong single unit. The specially designed Duo-Coil will provide years of trouble-free service.

Parker Duo-Coil has built in the following features:

- Reverse winding of the coiled air brake lines eliminates the possibility of tangling.
- Installation swivel fittings make hook-up a snap.
- The inner red emergency coil is wound inside the blue service coil offering added protection to the driver.
- The single unit provides clean and neat installation.
- Parker product testing for -70°F to +200°F provides performance confidence at low temperatures as well as the best cold temperature warranty in the business.

Application

The right connection for quick, trouble-free hook-up between your tractor and trailer. Whether it's an extended trailer with outboard valve ports on the chassis or high or low air ports on the cab, Parker Duo-Coil has the right configuration for your rig.*

- * Parker Duo-Coil assemblies fully comply with D.O.T. requirements covering coiled nylon brake tubing as stated in Chapter III— Federal Highway Administration, Department of Transportation, Subchapter B – Motor Carrier Safety Regulations (Docket No. MC-41; Notice No. 73-9), Part 393—Parts and Accessories Necessary for Safe Operation.

How to Order:

Duo-Coil kits are supplied complete—**Parker pre-assembled**, with everything needed, including spring guards and pipe end NTA fittings, **ready to install**. Special pipe thread sealant is factory applied. No cutting or fitting assembly is necessary. Just attach the gladhand to either end. Nylon tubing used in Duo-Coil conforms to SAE J844d (Revision c), Type 3B (3B refers to reinforced tubing).

Note: Gladhands not supplied.

Kit Coil Number	Tube O. D.	Valve Tail	Brass Male Ends (NPT)		Working Length ft.	Number of Coils
			Valve	Gladhand
