

Harness & Bundles

Application

Preformed, prebundled tubing or hose custom designed to reduce installation time and improve throughput.

Features

With Parker Parflex Tubing Harnesses, your production line will run faster, and be virtually free from tubing scrap.

Parker Parflex Tubing Harnesses combine all of the advantages found in Parker Air Brake Tubing with those of the electrical harnesses used today in the transit bus and heavy-duty truck market. They are designed and engineered to meet the exacting requirements of each bus or truck manufacturer for each vehicle.

Advantages

- Individual tubes are pre-cut and assembled into a single unit.
- Each tube can be color coded and/or numbered.
- Each harness may contain any number of tube sizes ranging from 1/8" O. D. to 3/4" O. D.
- The harness can be supplied with special clamps, brackets, and fittings to meet any need required by the customer.
- The air brake tubing used in a Parflex Harness conforms to SAE J844 type 3A and 3B and also D.O.T. FMVSS 106.

Several different harnesses may be required on a single unit depending upon the model of the vehicle, wheel base, and options available. To determine your harness application needs:

1. Recognize the cost savings available to you through the use of harnesses. How many dollars will be saved on tubing installation alone? On scrap reduction?
2. Call Parker. Have one of our application engineers study your applications.
3. Have our engineer design and build a prototype harness for your approval.
4. Approve the prototype as our basis to engineer your production model harness.
5. Implement the harness into your Purchasing and Production systems – one harness, one part number instead of multiple part numbers you once had for each air brake line.

Benefit

Your production line, now using a Parker Parflex Harness, will be neater – installation time and tube scrap will be kept to a minimum. Accuracy and ease of installation will be improved dramatically.

Join the many other truck and bus manufacturers who are already taking advantage of the benefits offered by incorporating Parker Parflex Tubing Harnesses into their systems.
