

## Introduction

The Parker Hannifin Tube Fittings Division 4300 digital catalog is a single Adobe™ Reader application that is made up of many files. We have added bookmarks and links to allow you to easily navigate through the document.

You'll notice that some text is highlighted in blue throughout the catalog. This means that the text has been linked to additional information about that subject. If you click on one of these words, you will immediately jump to a page with information about the subject highlighted in blue.

## Navigation Buttons

In addition to Adobe's standard links and bookmarks, we have created special navigation buttons to help you find related pieces of information. You will find these buttons on the pages of the catalog that show our parts. Each of these navigation buttons will take you to specific information related to each part, as shown below:

## Where Did All the Dimensions Go?

If you've used previous editions of this catalog, you'll notice that most of the tables and graphics in this edition have been edited to show only the most relevant dimensions. A feature of this digital catalog is that we have created links to pages which show all of the dimensions of a part. Not every part has one of these "fully dimensioned" pages — only those parts that don't show the full dimensions in the catalog will have one.

These parts will have a navigation button near the part name that looks like this:

Click on the Full Dimensions button to go to the page which shows all the dimensions for that part. To return to the catalog, click on the Return To Catalog button:

## Adobe Menu Bar

The Adobe menu bar is illustrated and described on the following page. For more information about how the Reader program works, select the "Reader Online Guide" from the Help menu.

## Searching for a Specific Part

To make this digital catalog easier to use, we've created an index of all the key words and part numbers in the catalog. The Adobe menu bar, shown on the next page of this help file, shows the Search icon. It is found near the right side of the menu bar. The icon looks like a pair of binoculars with a page in the background. This icon allows you to search for any part in the catalog simply by clicking on the icon. After clicking on the icon, simply type in the word, phrase, or part number you want to find and a list of files will appear. Click on the first file in the list and the page will appear with the part number highlighted. To see the next reference, you can return to the full list of documents or use the "Next Highlight" button.
