

South Gate, California

This year marks Titan's 30th anniversary. While we are proud of what we have accomplished, we are dedicated to building a better future for our customers and employees. We are truly honored that distributors and end-users have relied on us for the last three decades and we will continue to go to great lengths to earn their confidence and business. Each and every Titan associate is focused on providing the highest level of quality and customer service in the industry. It is our objective not only to meet our customer's needs, but also to exceed their expectations.

Titan's manufacturing and distribution facilities are strategically located throughout the United States in order to optimally serve our customers. Our California and Texas hose manufacturing facilities produce millions of feet of industrial hose every year in hose constructions up to 8-5/8" ID. We are also proud to be the largest full-service Custom Made Hose manufacturer in the United States. Our Custom Made Hose operations in California and North Carolina specialize in designing and fabricating hand-built application-engineered hoses and assemblies in sizes up to 60" ID. Finally, our stocking warehouses enable us to provide next day delivery to the vast majority of our customers throughout the United States.

As one of NAHAD's founding members, Titan is committed to producing high quality products and to using state-of-the-art manufacturing techniques. To that end, Titan proudly adheres to the NAHAD Industrial Hose Assembly Specification Guidelines. Established by NAHAD member volunteers, the guidelines provide performance recommendations for the specification, design and fabrication of hose assemblies and set a benchmark in our industry for safety, quality, and reliability.

You have our commitment that we will continue to dedicate our resources and efforts to the expansion of our line of exceptional industrial hose products and we are honored to have your support and trust.

Thank you,

Buddy Pepp  
President

Todd Mackey  
Chief Operating Officer
